

Thank you, I'm Matt Blair. Thank you very much for this opportunity to speak here today.

To be able to speak within the halls of the Legislature is a privilege

for me today and memory

for tomorrow.

Speaking out in support of our theatre gives me the opportunity to

let everyone know the RIALTO means a lot to both the people who

perform as well as those who come to watch the performers.

I think we all took the Historic Building for granted, never thinking

a catastrophe like this could happen, but it has, so let us rebuild

this landmark, so we can create some more good memories for

everyone, Thank you.
